SCIMITAR

HEAVY DUTY LAND LEVELLERS

SCIMITAR Land Levellers are built in New Zealand for New Zealand Conditions. With over 30 Year's experience in the farming industry these levellers have been trialled, tested and developed over time to meet our clients' needs and survive the intense use of all New Zealand environments. Sizes ranging from our Standard 3m Leveller through to our Heavy Duty 4 – 8m Levellers we aim to provide a solution for everyone, whether it be big or small. Scimitar Levellers have a range of options and can be custom modified to suit specific requirements for different areas.
